

## About Focus Edu Care

Pharmaceutical industry all over the world has gained an unmatched momentum, making Clinical Research one of the lucrative careers in recent times. Since the niche pharmaceutical products from various pharmaceutical industries have touched down in terms of its time span, the new avenues and new drugs are the order of the day. Clinical Research involves studies world over; the effect as well as the safety of drugs needs to be studied considering the variation in the race, genetic makeup, cultures, food habits, environmental and climatic variations. The coordination, compliance and the data management requires huge manpower.

The global market is estimated to be worth over USD 52 billion. There are more than 2,50,000 positions vacant with attractive salaries. Moreover, with a dramatic increase in the number of trials being conducted worldwide; the demand for clinical research professionals is ready to reach an all-time high.

## Courses Offered

### 2. Post Graduate Program in Clinical Research (PGPCR)

Duration: 1 Year (Weekend)

#### Eligibility:

Health Science, AlliedHealthScience: MBBS, BDS, BPT, MPT, BAMS, BHMS, BUMS, B. PHARM, M.PHARM, BIOTECH, Bsc, Msc, Ph.D, Nursing, MD, DNB, DM, MS, MCH, MDS

#### Modules Covered

- ◊ Fundamentals
- ◊ Drug Discovery & Development
- ◊ Ethics in Clinical Research
- ◊ Regulatory Requirements
- ◊ Clinical Trial Process
- ◊ Documentation in Clinical Research
- ◊ Statistics in Clinical Research
- ◊ Clinical Trial Management
- ◊ Clinical Data Management
- ◊ Pharmacovigilance
- ◊ Audits & Inspections
- ◊ Reviewing Medical Literature
- ◊ Clinical Research Process Outsourcing
- ◊ Clinical Research and 6-Sigma

## Salient Features

- ◊ Industry based content
- ◊ Tie up with MNCs
- ◊ Experts training for nearly 240 hrs
- ◊ Mock interview and seminars
- ◊ 100% placement track record
- ◊ Soft skills training through personality development program
- ◊ Wi-fi enabled campus
- ◊ Industrial exposure
